## About TMS

Based in Warsash on The Solent, (near Southampton UK) TMS provides a comprehensive suite of boating services for power and sail. This includes management services, consultancy, delivery, sea survival training, safety checks, tuition, team building & motivational speaker events, organised cruising and chartering.

This publication details TMS's complete range of Services.

The co-founders of TMS have been 'out and out' boating enthusiasts for nearly 30 years now, where TMS is as much a hobby as a business.

They have sailed all over the world during these years, clocking up countless hours, especially in The Solent, South Coast and crossing The Channel, and enjoy sharing this wealth of knowledge to new and existing boating enthusiasts.

The list of The Team's formal RYA, military and affiliated marine qualifications is vast and enviable. Together they bring real practical hands on experience.
